

Games Worksheet

Carey Pridgeon

July 1, 2017

1 Preamble

- Read this worksheet completely before you begin
- Single word answers will not be graded. You must use sentences or paragraphs.
- Your answers need not be long, they just need to be complete, and referenced where you have used an external source.
- Answer **all** questions to gain the full marks associated with this worksheet.

1.1 Questions

- Do you think the sale of open source games is viable now or in the near future? If you do, say why, but if you don't, explain why not.
- How do you think a current online game retailer, like Steam or GoG (for example) might approach the selling of Open Source games? Who do you think might be the best choice of those that exist now, or do you think none of them would be? Justify your answer.
- If you were to set up a community for Open source games developers to collaborate, what would your priorities be? Provide a list with a brief elaboration for each point.
